Workshop title	Lyrics - Make music about what moves you!	Creative Factory. Boredom forbidden. Play week in the holidays	Drawing with acrylic	contemporary dance	Hip Hop, Rap and Beats - Music Moves	Cultural and creative activities - discover Würzburg with the Residenz, the city library, the environmental station and the state horticultural show and make art along the way.
Description	This week you will write your own lyrics and songs and then implement them as a "band" with drums, electric bass, electric guitar, keyboard and vocals.	Ganna Kravchenko and Tetjana Kiriljuk invite children to visit a creative factory during the holidays. This factory is located in a country where words cost a lot of money. That's why in this country you only speak when you are very rich or when you have to say something very important. That's what happened to a girl named Amelie - she had a fight with her best friend and wanted to finally say "sorry" to her. Since her family didn't have much money, Amelie couldn't buy this word. She had to get inventive and went to the creative factory. There she found out how to communicate with her best friend even with very little money. Are you curious?	In the first step we will learn some techniques of drawing and later move on to acrylic painting. We will try out different materials and paint on canvases. At the end of the workshop, each artist will take their work home with them. I look forward to seeing you.		You learn to write and rap hip hop lyrics from your own ideas. We build our own beats and use many different instruments and the sounds of the city.	You will be artistically active at various locations in Würzburg. The theme is your world: your birthday, your room, your dreams and wishes and also mythical creatures.
